Re: January 1, 2018 to March 31, 2018 Report Award 1503

Good day Denali Commission!

It has been difficult to get a hold of Army Corp of Engineers, which caused a delay of the lagoon side rock revetment erosion project. Unfortunately, this project has not started yet. Some conversations and correspondences took place by phone to talk about the project, however, very little else have been done. As soon as I can, I will get an update and see where this project is. No monies have been spent on this project.

The Denali Commission Coordinator position was vacated by the former employee in April 2018. So, the position will be advertised shortly.

For this quarter, I have been given the task to send in this quarter's report.

Thank you. Any questions, please don't hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read 'MH' or 'Millie', with a long, sweeping horizontal stroke extending to the right.

Millie Hawley, TTP Coordinator
